City of Lebanon Planning Board Meeting, April 13, 2020
Conditional Use Permit Application
Zoning Ordinance of the City of Lebanon, NH: Article VI; Section 612.3

Project: Lebanon Landfill Gas-to-Energy Conversion Project

April 20, 2020

Planning Board Questions and Responses:

Question: Disposal of Hydrogen Sulfide (H₂S), Volatile Organic Compound (VOC), and Siloxane Removal Medias. Will hazardous material be disposed of in Lebanon?

Disposal of the media associated with H₂S, VOC, and Siloxane removal from landfill gas (LFG) will not result in the disposal of hazardous waste in the Lebanon Landfill. The Lebanon Landfill is prohibited from disposing hazardous waste, as defined by Env-Sw 103.16, in the landfill in accordance with the Solid Waste Management Facility Standard Permit issued by the New Hampshire Department of Environmental Services on March 19, 1999.
