RE: Hillcrest Reconstruction Project-90% Plan Review

Dear Resident/Property Owner:

I am writing this letter today to cordially invite you to a community conversation being held on Thursday, February 13, 2020, beginning at 5:30PM at the Lebanon Middle School Cafeteria, 5 Moulton Avenue. The meeting is to provide information and share the 90% developed plans related to roadway, drainage and utility improvements at Hillcrest Acres. This project will affect Hillcrest Drive, Prospect Street, Skylark Drive and Ledge Lane and is planned for construction this year.

As you may recall, we held meetings in 2018 and 2019, where we discussed the general components of the design project and the proposed impacts to private property. Walk-throughs of the neighborhood were conducted, and concerns expressed by residents have been incorporated into the design plans where possible. The February 13th meeting will be to further discuss the general components of the project as the project design has moved forward and to review specific impacts to private property.

The meeting is open to all residents and City Councilors will also be invited to attend. It is our hope that you will be able to attend and will encourage your neighbors to do the same. Your input is welcome and valuable to the desired outcome of this project.

If you have questions in advance of the meeting, please contact Christina Hall, City Engineer, at 448-3112.

Thanks for your time and we hope to see you on Thursday, February 13th.

Sincerely,

DocuSigned by:
