RE: Combined Sewer Overflow (CSO) Phase 12(Mechanic Street, Mascoma Street, Bomhower, Freeman, Avon, Ora, and Myra Ave.) Project Substantial Completion

Dear Resident;

This letter is to let you know that the CSO Phase 12 project is winding down for the year. We appreciate your patience and understanding through the course of the construction. Park Corporation has completed all of the utility work on the project and is now finishing the first round of paving, seeding, and general project clean-up. If you have any items or issues that need to be addressed relative to this project please contact Christina Hall at [Hall@lebanonnh.gov](mailto:Hall@lebanonnh.gov) or at 448-3112 x 1502, or my cell at 603-306-6912, as soon as possible so that we can solve these issues before the contractor leaves the site. Concerns should be turned in by June 15<sup>th</sup>, in order for them to be completed. Due to the Covid 19 restrictions we cannot have visitors at the Department of Public Works Administration building located at 193 Dartmouth College Highway next to the Public Works Garage but am happy to you meet you on site. Calling or emailing will get the issued resolved much quicker than by letter.

Thank you,

Christina B. Hall, P.E.  
City Engineer
