

City of Lebanon

51 North Park Street
Lebanon, New Hampshire 03766

October 24, 2013

Dear Residents/Property Owners:

Thank you to those who could attend the Community Event that was held at the Carter Country Club September 10, 2013. The meeting was well-attended, and feedback and insight we received was invaluable. I am writing this letter today to share information on the pending street reconstruction that is to take place in conjunction with the replacement of utility lines for the Mechanic Street Project. I am enclosing a brochure, "Road Construction on My Street," which was designed to answer some frequently asked questions relative to street reconstruction. I hope you find it useful, and will place it in a spot that is convenient for your future use. The portion of Mechanic Street to be affected runs from High Street to Exit 19 on I-89 and includes all intersections along the corridor.

As part of our continuing commitment to openly communicate with our residents, on **Tuesday, October 29, 2013, from 4pm to 6pm; Wednesday, October 30, 2013, from 4pm to 6pm; Monday, November 4, 2013, from 3pm to 5pm; Tuesday, November 5, 2013, from 3pm to 5pm** members of City Staff, along with our construction engineers, will be conducting on-street meetings to review the project area with an eye towards the potential impacts to individual properties. It is our hope that all property owners/ business owners will be able to attend. However, if you are unable to make the walkabout scheduled for your specific address, please contact Mike Lavalla or Christina Hall at the Department of Public Works to schedule an individual meeting, or with any information or questions you may have, at 603-448-3112.

Attached is the list of the addresses which will be the focus during each walkabout. For unaddressed properties, please look for your road range. Each walk will begin at the underlined address and will proceed in order. You are welcome to walk the whole area with us, or just come out for your property.

Please know that your input is a vital part of the process as we redevelop these areas of the City. I hope you will join us for these important meetings.

Sincerely,

Greg Lewis
City Manager
